KNUD HOLSCHER DESIGN

DESIGN  
CLASSICS  
SINCE 1971

- in colors that meet  
your needs!

From the top:  
Arne Jacobsen, Henning Larsen,  
Jean Nouvel, Bjarke Ingels  
and Knud Holscher

# We are where you are!

## DANISH BY HERITAGE, INTERNATIONAL AT HEART

d line is founded on Knud Holscher's strong design philosophy: "Modest design that is designed to last". Knud Holscher has won more than 70 design awards and is one of the most influential designers in Scandinavia. Holscher began his career at the studio of the world-famous Arne Jacobsen. Young Holscher was put in charge of St. Cathrine's College in the UK. Several great buildings and design objects have followed since then. Among d line's IKONS are also Jean Nouvel, Henning Larsen, Arne Jacobsen, Bjarke Ingels and more ...

## TOTAL CONTROL OF PRODUCTION – COST AND DELIVERY

d line has its own production facility that is specialized in the manufacture of handmade and bespoke item production. d line is a manufacturer characterized by design by renowned architectural designers. These designers chose d line as their preferred partner because we understand their design vision and transform ideas into products of outstanding quality. d line has total cost control, and is thereby also in price control. Furthermore, we deliver all standard products within 48hours. We take pride in taking customer care to a new level!

## ACCESSIBLE IS ABOUT BEING THERE!

d line employs approximately 70 people in 7 countries and we market our products in over 40 countries. We have offices in all major design hubs in the world: Copenhagen, Dubai, Singapore, Amsterdam, and London. The breadth of design items and our ability to custom-make products enables us to tailor each specification to meet your individual needs. And you can get the help you need within minutes.

# Custom-made by you!

Are you looking to build your personal design statement?  
We are here to help!

The new d line color concept offers you the opportunity to access d line design classics in exclusive metal colors, full colors, an invisible antibacterial coating or solid metals such as brass or stainless steel. We provide different colors and coating processes for different purposes. Take a look at our 4 color favorites that have become our standards and that provide a world of new opportunities.

Furthermore, if you have a building project of a certain size, we can custom-make the color exactly to your specifications. It's your choice!

Non-drip pump

## METAL COLORS

### - Copper and brass

The metal surface of copper and brass coloring provides a premium look in the bathroom or washroom setting or to the door.

Choose between polished or brushed products to get your favorite surface finish.

Almost all of our products are available with this treatment with a few exceptions.

## FULL COLORS - Antracit and Umbra

We have introduced two sophisticated yet durable colors, Antracit and Umbra included in our standards. Depending on the project size, we will strive to meet your special color demands.

Unique  
hand-made  
quality

A smart lid covers the  
visibility of the brush

## CLASSIC

All d line hardware solutions and accessories for the washroom and bathroom are based on impeccable design solutions, intrinsic functionalism and installation techniques developed though years of wisdom and experience. Both our hardware and sanitary product lines are made with 316 stainless steel and are available with brushed or polished surfaces. Depending on the product we also do other metals eg. solid brass.

Project:  
The Royal Danish Playhouse,  
Copenhagen

Architect:  
Lundgaard & Tranberg Architects

# A selection of our most popular designs

With few exceptions, we can provide different colors and coating processes for almost all our products, so that you can equip a total door, bathroom or washroom. We handle each order as a 'custom-made special'.

# X-BAC<sup>®</sup>

## Antibacterial Coating

The antibacterial coating we use is transparent, which leaves the color and finish unaffected – [except for some copper surfaces]. Also, its very resistant and it does not contain nickel or other harmful substances.

It has been tested at Fraunhofer Institute in Germany, which proves that X-BAC<sup>®</sup> far exceeds JIS Z 2801 standard requirements. In addition to the tested E. coli bacteria and MRSA, the coating is effective against a wide range of other bacteria, viruses, and fungi. The coating is also tested at the National Danish Hospital [Rigshospitalet] infection hygiene department. We believe in quality. Ask your local d line project specifier for details.
