

GC100-1300A **DIMMABLE**

The deep recessed downlight series combine beautiful aesthetics and glare-free performance with better lighting quality than traditional downlight fixtures.

The GC100-1300A deep recessed LED downlight provides higher efficacy and longer product life than traditional 26W CFL downlights while delivering better light quality.

Features

- Dimmable
- Long life span up to 35,000 hours
- Deep recessed design

Benefits

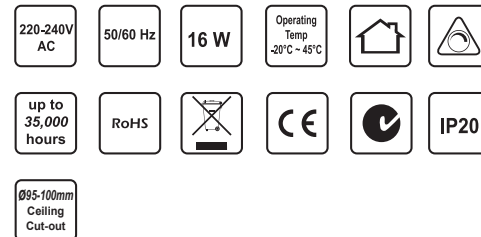

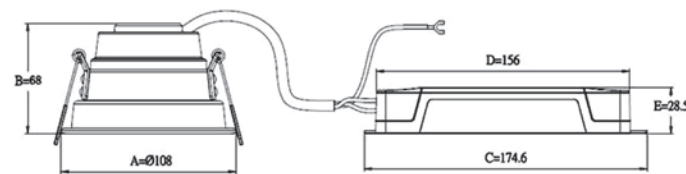

- Dimmable with a normal 1-10V dimmer to easily create engaging ambiances
- Lower maintenance costs due to long product life
- Glare-free with no noticeable hot spots

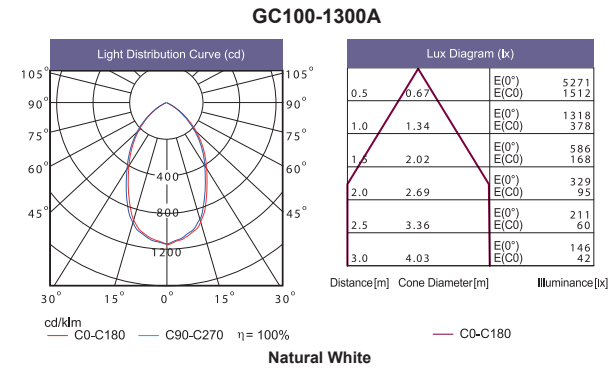

Applications

Ideal for office lighting, retail lighting, lobbies, corridors lighting and hospitality lighting
